

## **Course Syllabus**

### **Banks Man/ Vehicle Marshall Training**

There can be an increased risk of accidents when vehicles are operating in the same area as pedestrians, which can result in serious injury or death!

It is the company's responsibility to ensure the safety of their workers and that they are adequately trained.

Only trained and qualified Vehicle Marshalls should reverse vehicles!

This course is designed to assist vehicles when reversing on and off premises, where a vehicle is unable to enter or exit in a forward direction.

The aim is to give employees the correct skills and teach them the recognised system of hand signals to use when reversing a vehicle

The course is aimed at anyone who assists in the reversing of vehicles, in particular supervisors and employees.

By the end of the session the candidate will be able to:

- Use recognised hands signals to reverse a vehicle safely
- Identify what vehicle manoeuvres will be necessary?
- Recognise if it is possible to avoid the need to reverse?
- Identify if it is possible to remove people from the area?
- Recognise if there is enough space for reversing?
- What training/ instruction/ supervision should be provided?
- Consider all dangers when vehicles are reversing?
- Identify if vehicles use the most suitable route when reversing?

### **Certification**

A certificate of attendance will be awarded to all successful candidates who complete this course.
