

Course Syllabus

Confined Space Awareness

This course is aimed at anyone who works within a confined space.

The aim of this course is to provide all course candidates with an awareness of the legislation and hazards relating to confined space operations.

By the end of the session candidates will have an understanding of:

- Awareness of Confined Space legislation
- Ability to recognise and identify a confined space
- Understanding of the hazards associated with confined spaces
- Awareness of Health & Hygiene aspects of the confined space environment

An in-house certificate of attendance will be awarded to all candidates who successfully complete this course.
