

Course Syllabus

Slips, Trips and Falls Aversion

According to the HSE, more than a third of reported workplace injuries each year can be attributed to slips, trips and falls, yet the majority of these injuries can be easily prevented.

The aim of this course is to help employers comply with the Health and Safety at Work Act 1974.

The course explains the steps required to undertake a risk assessment and demonstrates the control measures that employers could use to ensure that their employee's health & safety in relation to slips, trips and falls in the workplace.

This course is aimed at all company personnel.

By the end of the session, candidates will be able to:

- Undertake a basic risk assessment.
- Explain how to avoid slips, trips and falls in the workplace, including how to use good housekeeping techniques to eradicate potential hazards.
- Describe safe systems of work to help avoid possible slips trips and falls.
- Implement control measures to reduce the risk of injury from slips, trips and falls.
- Identify Personal Protective Equipment that may help in certain occupations.
- Demonstrate their commitment to the employer's Health and Safety aims and objectives.

Certification

A certificate of attendance will be awarded to all candidates who successfully complete this course.
