

Course Syllabus

Total Preventative Maintenance (TPM) Training

This course gives an introduction to the concepts and methods that lie behind TPM. Using the tried and tested JIPM approach, delegates will learn that TPM is much more than a maintenance technique and how it can become an organisation-wide improvement programme.

The course is suitable for people who will be involved in the development, application and support of TPM within their organisation. It is aimed at all levels, from junior staff to senior management.

By the end of the session candidates will be able to:

- Introduction to TPM
- 12 steps of deployment
- Overlapping small groups
- The 8 Pillars of TPM
- Basic concepts of TPM
- 16 Losses and OEE
- Deterioration and reliability
- Achieving Zero Losses – Accidents, Breakdowns, Defects

An in-house certificate of attendance will be awarded to all candidates who successfully complete the course.
